

PRUDENCE MAPHUTHA

FRONTEND DEVELOPER

Alexandra, Johannesburg • 072 936 2103 • prumaphutha@gmail.com

<https://github.com/Repholositswe>

SUMMARY

I'm an IT student with a strong foundation in web development, certified in responsive design and React. Passionate about frontend development, I specialize in building clean, user-friendly interfaces. I'm currently expanding my skills by learning backend development with Java and Spring Boot, with the goal of becoming a full-stack developer. Motivated, adaptable, and eager to contribute to a dynamic team, I'm ready to take on a junior developer role and continue growing in the software development field.

TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript, Python
 - Frameworks: React
 - Tools & Technologies: Git, npm, REST APIs
 - Responsive Design: Bootstrap, CSS Grid, Flexbox
 - Other: Agile methodologies, UI/UX design principles
-

PROJECTS

Facebook Clone

- Developed a responsive Facebook clone website that mimics the layout and core features of the original platform, including the ability to display posts, a comment section, like buttons, and a dark mode toggle.
- Implemented dark mode using JavaScript, enabling users to toggle between light and dark themes, with persistent preferences using local storage.
- Utilized CSS media queries to ensure the website is responsive and functional across multiple screen sizes.
- Integrated AI-generated images into the design to give the website a professional and polished appearance.

Car Rental Website

- Built a responsive car rental website using HTML, CSS, and JavaScript
 - Designed a clean and user-friendly interface with vehicle listings and booking form
 - Implemented responsive layouts using flexbox and media queries for mobile and desktop
 - Added interactive elements like dropdowns and form validation with JavaScript
 - Focused on usability, modern design, and cross-device compatibility
-

Music Player

- Developed a simple music player website that allows users to play, pause, and fast-forward a song.
 - Built with HTML audio features to control the music and ensure seamless playback.
 - Designed the user interface using CSS, making the layout visually appealing and easy to navigate.
 - Integrated JavaScript to enable interactive features such as play/pause and fast-forward functionality.
 - The website currently plays a single song ("Company" by AKA) with controls for playing, pausing, and fast-forwarding.
 - Focused on user-friendly design with clear play/pause controls and easy-to-use features.
-

EXPERIENCE

Freelance Web Developer - Mashudu Salon

November 2025 - Present

- Designed and developed a responsive website for Mashudu Salon using HTML, CSS, and JavaScript
 - Integrated an interactive gallery showcasing salon services and styles
 - Implemented a booking system for clients to easily schedule appointments online
 - Added a location map to help clients find the salon effortlessly
 - Ensured mobile and desktop optimization for seamless user experience
-

EDUCATION

Diploma in Information Technology

Feb 2024- Nov 2026

University of South Africa (UNISA)

- Relevant Coursework: Web Development, Database Management, Software Engineering
-

CERTIFICATIONS

- SheCodes Introduction to Coding
 - SheCodes web development
 - SheCodes Responsive Development
 - Shecodes React Development
-

ADDITIONAL INFORMATION

- Actively contributing to open-source projects on GitHub.
- Engaged in online coding communities and forums to share knowledge and stay updated with industry trends.
- Passionate about continuous learning and professional development in technology.
